

Clear responsibilities. Purpose in every mile.

HOWL Transportation Group Inc. welcomes commercial, institutional and public-sector transportation enquiries across Canada and the United States. Our mission is to keep business moving through safe transportation, clear communication and dependable service.

ROAD FREIGHT ENQUIRIES

General & recurring freight	Specialized road freight	Regional & equipment options
Dry van / full truckload LTL / partial truckload Dedicated lanes / expedited enquiries	Refrigerated / open deck Heavy haul / step deck / lowboy Specialist cargo subject to review	Local / regional / final mile Power only / drop trailer / drayage Bulk, tanker and vehicle enquiries

Equipment, route, capacity and the performing carrier are confirmed for each accepted move. Service categories do not represent ownership of every equipment type.

AN OPPORTUNITY-SPECIFIC APPROACH

- Define the scope - Agree on shipment profile, volumes, delivery windows, locations and contract duration.
- Review the operating plan - Assess equipment, cargo handling, site access, communications and contingency requirements.
- Confirm the records - Verify relevant legal-entity information, authority, insurance, registration and procurement criteria.
- Agree on reporting - Identify BOL, delivery, exception, incident and escalation requirements for the assignment.

SERVICE ARRANGEMENTS & RESPONSIBLE GROWTH

Direct HOWL carriage must be identified in the accepted booking. Any separately arranged service requires a clearly identified contracting party, performing carrier and applicable agreement. Canada-U.S. cross-border and other routes are reviewed individually. U.S. domestic carriage remains a future expansion goal, subject to authority and operating readiness.

START THE PROCUREMENT CONVERSATION

- Send an unclassified requirement summary, solicitation reference, response deadline and contact details to dispatch@howltrans.com. Request the supporting records relevant to your opportunity. Follow the solicitation's communication and submission rules.
- This design-stage overview is not an offer, certification, government endorsement or representation of an awarded contract. Current capacity, authority, insurance and procurement eligibility require verification before contracting.
